[linkedin.com/in/mikolajdobrucki/](https://www.linkedin.com/in/mikolajdobrucki/)

— a product designer with a passion for code and systems. I help companies ship beautiful, effective designs that build trust and convert users into paying customers.

I specialize in creating experiences for data-heavy products and developer tools that require a deep understanding of technical audiences. I believe in the power of personal craft that automation can enhance but not replace.

## Experience

**Castle** / Staff Product Designer  
Nov 2024 – now / Krakow, Poland

Leading key product initiatives and design engineering.

**Snowflake** / Senior Product Designer  
Apr 2024 – Oct 2024 / Warsaw, Poland

Worked on platform monitoring and observability.

**Sanity.io** / Senior Product Designer
